For An Amazing Advantages

Potential Proven  
Water & Soil Probiotic

# GENOPRO

## Cocktail of Probiotics

### Key Ingredients :

Screened potential probiotic microbes (Potency: > 20 x 10<sup>9</sup> cfu/g)

### Advantages :

- Greatly reduces pathogenic load & controls infection
- Improves pond water quality & reduces off-flavor problem
- Helps in reducing ammonia, nitrite & other poisonous gases naturally
- Effective in wide range of pH and salinity and helps in stabilizing pH, alkalinity & algal blooms

### Dosage & Application :

Pond preparation: 500-1000 gm per acre

During Culture: Early Stage: 200-250 gm per acre

\*To be used under guidance of technically qualified aqua consultant.

### Storage :

**Keep in cool and dry place, away from sunlight**

NOT FOR HUMAN USE | FOR AQUATIC ANIMAL USE ONLY

Available In: 500gm.

Biological Reduction of  
Ammonia by Autotrophic  
Nitrifying Bacteria

# GENOUCA-P

**Yucca Schidigera with Probiotic**

**Key Ingredients :**

Selective probiotic microbes fortified with concentrated Yucca schidigera extract ammonia binding agent

**Advantages :**

- Efficiently degrades organic matter and reduces ammonia and nitrite levels.
- Accelerate nitrification and denitrification process.
- Removes sludge and bad odour.
- Detoxifies pond water, Increase DO Level.

**Dosage & Application :**

During Culture & Grow out ponds: 250g - 500g per acre.  
\*To be used under guidance of technically qualified aqua consultant.  
Mix thoroughly with sand and apply throughout the pond.

**Storage :**

**Keep in cool and dry place, away from sunlight**

NOT FOR HUMAN USE | FOR AQUATIC ANIMAL USE ONLY

**Available In: 500gm.**

Advanced Biological Formula For  
White Gut Disease and  
Aqua Microbiome

# GENOGUT

## Gut Probiotic

### BENEFITS:

- Promotes improvement of the digestive system.
- Enhances immune system of the shrimp.
- Improves gut micro flora and reduces white gut problems.
- Combating various diseases by improving the efficiency of the digestive system.
- It secretes immune stimulants that activate the immune systems of the animal.

### DOSAGE :

**Preventive** : 5-10 gms/Kg of shrimp feed  
**Treatment** : 5-15 gms/Kg of shrimp feed  
Or as directed by an aquaculture consultant

### STORAGE :

**Keep in cool and dry place, away from sunlight**

NOT FOR HUMAN USE | FOR AQUATIC ANIMAL USE ONLY

Available In : 500 gm.

Premix of Macro &  
Micro Trace Minerals  
with Amino Acids

# GENOMIN

Significant group of Minerals

## BENEFITS

- Balance the necessary mineral ratios in pond water.
- Regularise the process of osmoregulation
- Shoot up production and optimize food conversion ratio
- Helps to Grow Planktons and useful micro elements for fish and shrimps
- Protect shrimp from loose shell and muscle cramp syndrome

## DOSAGE

For Pond Preparation: 25Kg/Acre  
During Culture: 5-10Kg/Acre

## STORAGE

Keep in cool and dry place, away from sunlight

NOT FOR HUMAN USE | FOR AQUATIC ANIMAL USE ONLY

Available In: 10 Kgs
